- PVC-NITRILE / PVC-NITRILE
- Polyester interior lining
- Available sizes 37-47
- Resistance to hydrocarbons, fats, oils, chemical agents, etc as much on the sole as on the upper.
- Anti-slip sole

CERTIFICATES:

- UNE-EN 20344-1
- UNE-EN 20347-1
- ISO 6110:92

COMMENTS:

The RAIN BLANCA is made of a compound of PVC + NITRILE RUBBER obtaining the same resistance throughout the boot against hydrocarbons, fats, oils, organic products like blood and casein and cleaning products such as bleach, ammonia and other disinfectants .

Widely used in workplaces where hygiene and resistance to many chemicals and organic products is necessary.

Example: food stores, canneries, slaughterhouses, food handling, etc.
